Portfolio Website: https://portfolio-pau.herokuapp.com

SUMMARY

I am a full stack software engineer with 2 years' experience building multiple software applications. I am a very reliable team player with very effective communication skills. I have worked on turning design concepts, mockups and existing codes into reusable web components with libraries like React.js. I have worked also on building stable and efficient Rest API with frameworks like Laravel.

SKILLS

HTML5	**MYSQL**
CSS	**REST**
JAVASCRIPT	**GIT**
REACT.JS	**GITHUB**
NEXT.JS	**NODE.JS**
PHP	**TAILWINDCSS**
LARAVEL	**BOOTSTRAP**

EXPERIENCE

I have two years' experience in full stack development. I have no prior job experience because I am new in the field though very proficient with good communication skills and a fast-learning ability. I have managed to build some cool applications on my own, some for fun and for practice and study purposes using the skills listed above and can be found in my portfolio website stated in the topmost part of this resume. I believe that if given the chance as an entry level developer I would be able to prove my worth and abilities and also seize the opportunity to continuously learn from other developers to enhance my growth and knowledge as a developer.
